Sommaire / Inhoud / Contents

1. 1. A B2B platform
2. 2. Plans for different needs
3. 3. Europe and tax
4. 4. Security and control
5. 5. Professional content

1. A B2B platform

SCT WebCare 360 helps businesses and professionals present their activities, publish ads and media, manage visibility and receive potential customer contacts. The Platform is not a party to contracts between advertisers and their customers.

2. Plans for different needs

Basic supports a simple presence; Pro raises ad/media capacity; Premium provides the highest capacity, including two short videos. Exact prices and limits are in the Price List.

3. Europe and tax

The Platform uses European pricing zones and verifies professional status before payment. VIES is used where appropriate for EU businesses. VAT/reverse-charge treatment is controlled server-side based on verified data.

4. Security and control

Access rights, ownership, plan limits and payment status are verified by the backend. Accounts may use MFA, protected sessions and security-management tools.

5. Professional content

Businesses remain responsible for legality, accuracy and rights in their ads, images and videos. Content must comply with the Publication Rules and can be reported or moderated.
