E-mail: sct@sctwebcare360.com

Web: sctwebcare360.com

Sommaire / Inhoud / Contents

1. 1. Verify the business
2. 2. Choose a plan
3. 3. Pay
4. 4. Secure the account
5. 5. Create an ad
6. 6. Processing and moderation
7. 7. Publish and manage

1. Verify the business

Provide legal name, country, enterprise number, address and applicable VAT/Tax ID. Verification occurs before Checkout.

2. Choose a plan

Choose Basic, Pro or Premium and monthly or yearly billing. The backend determines the pricing zone and amount from the verified country.

3. Pay

Payment is made through secure Stripe Checkout. Access is activated only after server-side confirmation of payment and tax checks.

4. Secure the account

Depending on security requirements, configure MFA/TOTP and manage sessions/devices in the account panel.

5. Create an ad

Create an ad and add images and, where your plan permits, video. Server-side entitlements enforce all limits.

6. Processing and moderation

Media passes technical controls. Videos are transcoded and thumbnailed, then follow the moderation workflow. Content may be approved, rejected, hidden or restored.

7. Publish and manage

Authorised content becomes public. Businesses can view statuses, rejection reasons, plan usage and billing information. Users can report problematic content.
